

CCU 111

QPSK - PAL Transcoder

Common Interface

for CCH 600

Reverse Side

Features

- Easy installation and handling by remote control
- Common Interface
- Adjacent channel capable
- Stereo
- Output level adjustable
- Teletext conversion
- Tuner with active loop through
- D-Sub connector for AV, Decoder and S/W update
- Black screen generator for radio reception
- Applicable as Master Module for CCU112
- Made in Germany

Type	CCU 111 / QPSK - PAL
Input frequency	950-2150 MHz
Input level	40 - 74 dB μ V
Output frequency / channel	47 - 862 MHz / C2 - C69, S2 - S38
RF output level typ. / level adjusting	93 dB μ V / -15dB
Symbol rate	2 - 40 MS/s
S/N ratio weighted typ.	56 dB
Modulator type	VSB
Norm / TV Standards	PAL B/G, I, L
Audio mode	Stereo, A2
LNB voltage	0/14 Volt
Weight	ca. 0,3 kg
